² Active Return of the Fund is the difference between the Total Return and the return of the Benchmark. Gross Returns (before fees) are calculated by adding back the fees and expenses deducted. Please refer to the PDS for more information on fees and expenses.

Outlook

The Fund remains focused on the higher rated tranches of ABS issuance, offering investors a high credit quality, higher yielding, secured alternatives to investment grade corporate and government bonds, with low interest rate risk.

We place a high value on the structural benefits ("terms") typically included in global ABS structures to help preserve the principal of investors in the higher-rated tranches, such as cashflow priority, security, seniority, and reduction in leverage over time.

Fund Distributions

Distribution frequency	Monthly
Monthly distribution ⁹	0.23% (Oct 2019)
Target distribution rate (FY20) ¹⁰	1m BBSW + 1.75%

³ Spread over the swap rate.

⁴ The average credit quality is calculated using a duration adjusted Moody's Weighted Average Rating Factor (WARF) for both the S&P and Moody's security credit ratings within a portfolio.

⁵ Volatility is Standard Deviation.

⁶ Sharpe Ratio is the excess return over the Bloomberg AusBond Bank Bill Index (before fees) divided by Standard Deviation.

⁷ Tracking Error is the Standard Deviation of the Active Return (before fees).

⁸ Information Ratio is the Active Return (before fees) divided by the Tracking Error.

⁹ Calculated as the cents per unit (CPU) distribution at the month end divided by the ex-distribution unit price at the start of the month.

¹⁰ Target distribution rates for FY20 set at one month Australian Bank Bill Swap Rate (BBSW) plus 1.75% of the monthly unit price. Bentham intends to achieve the distribution rate for FY2020 with taxable income. If there is a shortfall of taxable income, the distribution may possibly include a capital return.

The current distribution rate setting was based on the running yield of the Fund as at 30 June 2019 and assumes the Fund continues to achieve an equivalent yield for FY2020.
