<sup>10</sup> Target distribution rates for FY22 set at one month Australian Bank Bill Swap Rate (BBSW) plus 3.25% of the monthly unit price. Bentham intends to achieve the distribution rate for FY2022 with taxable income. If there is a shortfall of taxable income, the distribution may possibly include a capital return.

The current distribution rate setting was based on the running yield of the Fund as at 30 June 2021 and assumes the Fund continues to achieve an equivalent yield for FY2022.

Actual distributions, however, can differ from this setting because of future matters which are not known or able to be presently identified.
