Bentham Defensive Income Fund (Class I)

Fund Aim

Fund aims to provide investors with access to a diversified, defensive, multi-sector credit strategy with a focus on providing steady monthly income with a focus on downside volatility.

Fund Performance as at 31 August 2022 (%)

	1 month	3 months	6 months	1 year	Since inception (p.a.)
Gross return (before fees)	-0.47	-0.59	-1.81	-2.82	-2.06
Benchmark	0.15	0.33	0.35	0.37	0.31

Portfolio and Market Returns

The Bentham Defensive Income Fund (Class I) had a before fees return of -0.47% for the month, underperforming the benchmark by 0.63%.

Portfolio update

Global credit markets experienced mixed returns in August. Floating rate credit generally had positive returns while fixed rate credit was dragged lower by higher bond yields. The cost of living and energy crisis in the United Kingdom and Europe weighed on risk sentiment, but governments have begun to unveil support packages for individuals and businesses. The banking sector is well prepared for economic weakness in 2H22 with high levels of provisioning. During the month, the Fund opportunistically reduced its exposure to a number of capital and corporate securities which had outperformed in recent months.

Securitised credit markets returns varied over the month, with CLO spreads tightening and RMBS (both Australian and UK) remaining steady. The fund participated in both the primary and secondary CLO market during the month. The Funds RMBS exposures continue to benefit from seasoning and structure amortisation.

The fund held an interest rate duration position of \sim 2 years at the end of the month. Interest rate positioning was a slight detractor to performance over the month.

Portfolio Summary Statistics

Yield to maturity	5.65%			
Running yield	5.00%			
Credit spread ¹	+211bps			
Number of issuers	56			
Interest rate duration	2.25 years

1 Year Sharpe Ratio	-1.33
1 Year Tracking Error	2.36
1 Year Information Ratio	-1.35

Fund Distributions

Distribution frequency	Monthly			
Monthly distribution ⁴	0.42% (Aug 2022)			
Target distribution rate (FY22) ⁵	5.0%			

² The average credit quality is calculated using a duration adjusted Moody's Weighted Average Rating Factor (WARF) for both the S&P and Moody's security credit ratings within a portfolio.

³ An assigned credit rating of BBB-/Baa3 or better by a credit rating agency.

⁴ Calculated as the cents per unit (CPU) distribution at the month end divided by the ex-distribution unit price at the start of the month.

⁵ Target distribution rates for FY23 set at 5.0% of the monthly unit price. Bentham intends to achieve the distribution rate for FY2023 with taxable income. If there is a shortfall of taxable income, the distribution may possibly include a capital return.

The current distribution rate setting was based on the running yield of the Fund as at 30 June 2022 and assumes the Fund continues to achieve an equivalent yield for FY2023.

¹ Spread over the swap rate.
